## Software Development Qualifications

- **Programming Languages and Tools:** Proficiency in Python, C, Java, bash scripting, and git; experience with Django, SQL, Backbone.js, SQLAlchemy and Django ORMs for Python, HTML/CSS/JavaScript, OCaml, Scheme, and Prolog.

## Software Development and Programming Experience

QUIP SAN FRANCISCO, CA  
Software Engineer Summer 2017 -  
edX CAMBRIDGE, MA  
Software Engineering Intern Summer 2016

- Improved user payment experience by migrating checkout cancel, error, and receipt endpoints from monolithic Open edX platform to independently-deployed ecommerce service and redesigning receipt page to reflect additional ecommerce features.

GOOGLE

CodeU Program Participant March-August 2016

- Implemented Redis-backed indexer, crawler, and command line-based search mechanism for a subset of Wikipedia.

PIXABILITY, INC.

BOSTON, MA

Python Software Engineering Intern

May 2015–April 2016

- Designed and implemented JSON-based query language for users to create query filters of arbitrary complexity when sending HTTP requests to exposed endpoints to retrieve a subset of records from a MySQL database.
- Extended exposed endpoints' sorting capabilities to allow users to sort on any computed metric; previously, users could only sort on a restricted subset of metrics corresponding with existing database column names.

UNIVERSITY OF ROCHESTER

ROCHESTER, NY

Undergraduate Research Assistant, Lab of Prof. Philip Guo

January-December 2015

- Wrote Python scripts to interface with a SQLite database and extract data about trends in discussions on the forums for a popular MOOC introductory computer science course offered by MIT on the edX platform.

HARVARD UNIVERSITY, SCHOOL OF ENGINEERING AND APPLIED SCIENCES

CAMBRIDGE, MA

Programming Intern

Summer 2014

- Wrote bash scripts to automatize job generation and submission to a high-performance computing cluster and shell scripting crash course for scientists moderately familiar with Linux to help future researchers modify my scripts; user guide and some of my scripts available for download at <http://bertoldi.seas.harvard.edu/downloads>.

CASA SYSTEMS, INC.

ANDOVER, MA

Software Development Intern

Summer 2012

- Expanded capabilities of video streamer to stream up to 1000 simultaneous sessions for IP unicast and multicast applications.

## Education

UNIVERSITY OF ROCHESTER

ROCHESTER, NY

Bachelor of Science in Computer Science; Bachelor of Arts in Music

May 2017

- **GPA of 3.95** (out of 4.0), magna cum laude with highest distinction, Dean's List all semesters.
- Recipient of 2016 Robert L. Wells Prize, Wilder Trustee and National Merit Scholarships, and 2014 Iota Book Award.
- Fall 2015: Head teaching assistant for Computation and Formal Systems (CSC 173).
- 2014-2015 academic year: Volunteer peer tutor for the Computer Science Undergraduate Council.

## Computer Science Courses and Projects

UNIVERSITY OF ROCHESTER

ROCHESTER, NY

Database Systems, Operating Systems, Web Programming

*Selected Past Courses*

- **C:** concurrent web proxy server capable of handling plain text, binary data, and chunked transfer encoding.
- **Prolog:** grammar parser and first order logic translator for a basic subset of English.
- **Python, JavaScript, HTML, CSS:** CRUD web application for children to learn basic programming principles.

## Publications

- **Joyce Zhu, Jeremy Warner, Mitchell Gordon, Jeffery White, Renan Zanelatto, Philip J. Guo. Toward a Domain-Specific Visual Discussion Forum for Learning Computer Programming: An Empirical Study of a Popular MOOC Forum. *IEEE Symposium on Visual Languages and Human-Centric Computing (VL/HCC)*, Oct 2015.**
